

AYRSHIRE

Two new **Genomax™** sires are added to our stellar Ayrshire line-up this round. The first, **De La Plaine Vicking**, is a Berdette son (Tri-Star x Reno) from the perpetual show winner **Forever Schoon Ping** EX-94 (by Modem). Ping, an All-American and multiple All-Canadian winner, was last year's Royal Winter Fair 1st place 5-YR-Old and Reserve Grand Champion. Ping is backed by an EX-93-2E Jerry, EX-90 B B Kellogg, VG-87 Milkman and then the world-renowned "**Prudence**"! Expect Vicking to be a source of solid component-rich milk production (288 Milk, +.09%F, +.06%P) and balanced type (+7). Fore udders should be long and well-attached (+10 Fore Attachment) and SCS should be low (2.85). **Vicking** has also earned the designations for **Robot Ready™**, **Show Time™** and **NAAG™** (North American Ayrshire Genetics). The second addition is **Kamouraska Bigstar** who is by Genial Situation (Reality x Poker) from a VG-86 Jupiter from the dam of **Decaf** and **Rockstar**. Expect **Bigstar** to offer the production potential this great family is renowned for with +1176 Milk, +.13%F and +.05P. When used on stronger framed Ayrshires, **Bigstar** should offer significant F&L improvement (+7) and tremendous Health & Fertility progress (+311 Overall Index). **Bigstar** is designated as a **Robot Ready™** and **Health Smart™** sire.

JERSEY

Three new Jersey sires have been added to our line-up this round which will be sure to generate a tonne of excitement for our Jersey clients. The first is Canada's new #5 GLPI sire and by far the highest type sire on Canada's Top 30 Sire List – **Comestar JDF Beautifull**. **Beautifull** is an latola from the former #1 LPI, VG-88 4* First Prize daughter from the amazing **Piedmont Declo Belle!** **Beautifull** debuts with solid Milk (+236) and exceptional components (+.31%F, +.21%P). With +11 for overall Conformation, **Beautifull** is sure to make the special one. His udders should be shallow (7S) and he is our best for F&L (+12), Heel Depth (+8), Set of Rear Leg and RLRV (+12 for both). Our first of two new **Genomax™** additions is **Missiska Mackenzie**. **Mackenzie** is the first Vinnie son available in the world (Region x Paramount Violet). This exciting high-genomic sire is out of Canada's #1 top ranked cow **Sunset Canyon Merchants I Maid VG-87**. The next dams are Sunset Canyon Impuls L Maid 4 EX-91, Lemvig Maid 4 EX-93-2E and Tenn Haug E Maid EX-93-3E. **Mackenzie's** production potential is off the charts with +1358 Milk, 108 Fat (+.59%) and +63 Protein (+.18%) while offering better than breed average Overall Conformation (+4) which earns him a +1991 GPA LPI (#4 overall in the breed). **Sandcreeks Franklin** is our last addition and second **Genomax™** sire. This Samson son (Valentino x latola), who is from a T-Bone from a Jacinto, is an outcross source of extremely high production yields (+1843 Milk, +91 Fat, +65 Protein) and strong powerful frames (+7 Stature, +5 Chest, +12 Angularity).

BROWN SWISS

Gubelman Glenn Lester is returned to service this round and like his well-known Swiss proven sire, **Lester** promises to be a source of Stature (+9), Chest (+10) and overall Dairy Strength (+7). The dam is an EX-92 daughter of the proven Italian sire Scorpio with a 4 lactation average of 265-276-276 BCA. The high-producing, VG grand-dam has 4.5% fat and 3.6% protein lifetime production. When protected for SCS, **Lester** will be a great source of component rich milk for cattle in need of added capacity.

GUERNSEY

From two generations of former #1 CPI Guernsey cows and VG Gold Star Dams, **Idle Gold J King Caspian** is released with a MACE LPI of +1238, +1036 for Milk and +13 for Conformation! From one of the great families of the breed, **Caspian** is sure to draw a lot of attention from our Guernsey clients.
