

We are breaking new ground this proof round with the addition of a myriad of exciting new bulls including a long-awaited proven polled superstar in **Stantons Adagio-P**.

Superstar is not an overstatement when you talk about the newly launched **Stantons Adagio-P**. He debuts as Canada's #1 proven polled sire for GLPI (3381), for Pro\$ (\$2184), and for Combined Fat & Protein (+133 kg). **Adagio-P**, however, is far more than an exciting new proven polled sire. He ranks with the very best of the best and is in fact the #2 ranked proven **Immunity+**® designated sire for both GLPI and Pro\$ in the World!

Basetta Digby Adagio P VG-86-2YR-CAN

1174 Agree VG-88 10* (also the dam of our #1 used sire since the August proofs **Stantons Alligator**). Her dam is a VG-2YR 11* Observer from a VG-87-2YR 18* Bolton which stemmed from **Wabash-Way Emilyann VG-88-2YR 44***. Emilyann (by Shottle) was a former #1 CTPI & GTPI cow in the breed as was her mother **Crockett-Acres Elita VG-87 GMD DOM 11***. Ultimately, **Adagio-P** is backed by 14 direct generations of VG and EX dams which also includes the world-renowned matriarch of the family

Adagio-P emanates from a truly renowned cow family that is packed with Star Brood cows and breed leaders from both sides of the border. Sired by the heterozygous polled sire Powerball-P, **Adagio-P's** dam is the former #1 GLPI cow Stantons McCutchen

Whittier Farms Lead Mae EX-95-3E DOM GMD.

Being a heterozygous polled carrier, the probability for polled progeny when **Adagio-P** is mated to cows known to be non-carriers of the polled gene is 50%.

Adagio-P debuts with +1678 Milk, +63 Fat (-0.01%), +70 Protein (+0.11%) and +12 for Conformation. Udders will be shallow (+11 Overall, 7S Udder Depth), with silky quality (+8 Texture) and high, wide rear udders (+10 Rear Attachment Height, +9 Rear Attachment Width).

Their Feet & Legs, with ample Heel Depth (+7), correct Rear Leg Set (0), and outstanding leg set when viewed from the rear (+14 RLRV), will be suited for any management system. Their rumps are also made the way breeders want them. In fact, he is our very best with +14 Rump. He is also our #1 Daughter Fertility sire with 108. Interestingly, when you dig into this number, you will see that to date his 670 registered heifers' **Age at First Service** is almost two full months earlier than breed average (57 days earlier) and the **56-Day NRR** on his milking daughters is 10% better than breed average! **Adagio-P**, who will join our **30 for \$30 Special**, is not just a star in the making, **Adagio-P is a superstar now!**

Athlone Adagio Moncton
GP-84-2YR-CAN
298-287-321 BCA

Westcoast Randall debuts as our second addition this proof round as Canada's new #4 GLPI sire with +2059 Milk, +73 Fat (-0.04%), +69 Protein (+0.00%) and +12 for Conformation. **Randall**, who is a Calving Ease specialist (106), will offer shallow udders (+9 Overall, 3S Udder Depth), double digit Feet & Legs and Dairy Strength (+10 and +13 respectively). **Randall** will also make a great addition as another important Rump improver (+9 Overall, +5 Loin, 4L Rump Angle and 4A Thurl Placement). **Randall**, by Loptimum, comes from an EX 4* Numero Uno followed by an EX Robust (dam of Rubicon) which stems from the amazing "**Dellia**" family. Unfortunately, **Randall** is a below average semen producer and has limited inventory available. He will be made available as **Limited Supply**.

Belan Randall Goldorak VG-85-2YR-CAN

CLAYNOOK DEALMAKER

0200HO10411

Claynook Dealmaker is our third and final new addition and he brings our list of **Immunity+**® designated proven sires available day-to-day to an all-time high of 10! **Dealmaker** is our first Unix son returned to service. His mother **Claynook Dawnette Hunter EX 6*** is a former #1 ranked heifer in Canada. Her dam **OCD Planet Diamond EX-92-3E 28*** has over 20 sons in A.I. and traces back to the respected **Windsor-Manor Rud Zip EX-95-4E DOM GMD 1***. **Dealmaker** debuts with +3075 GLPI, +1011 Milk, +58 Fat (+0.17%), 28 Protein (-0.04%) and reliable +12 for Conformation (on 281 classified daughters). With +15 for Mammary System, **Dealmaker** is our highest proven sire on our sheet. His double digit ratings for all attachments will trigger interest (+11 Fore, +12 Rear Height, and +10 Rear Width) as will his unreal +18 for Median Suspensory. Daughters will have sound legs (+7 Overall, 107 Hoof Health) and they will have some width (+6 Pin Width) and an ideal sloping Rump Angle (4L). With a Calving Ease of 103 and also being available in our **20 for \$20 Special**, we think that we will be seeing the **Immunity+**® designated **Dealmaker** closing quite a few deals!

Amplify the best genetics in your herd with EastGen's expanded line-up of sexed semen.
