Honeymoon

**Faststart** sire so breeders will need a signed contract to get access (ask your EastGen rep for details). **Honeymoon** is our #2 ranked sire, just behind **JX Progenesis Cinnamon {6}**, debuting with +2124 GPA LPI, +318 Milk, +55 Fat (+.48%), +36 Protein (+.31%), and +13 for Conformation. **Honeymoon's** maternal line goes back almost 50 years with 9 generations of VG or EX dams including some of the breed's most iconic total-performance and respected cows including **Valleystream Remake Honey EX-92**. **Honey** was nominated for Jersey Cow of the Year in Canada, had a successful show career in Western Canada show rings, and received multiple Gold and Platinum production awards.

Jersey breeders will also notice a new sire chart on our **Dec '23 Price & Proof sheet**. The new **JPI Ranked Jerseys chart** was initiated due to recent changes in the JPI formula which increased the variation of the rankings of sires when viewed using the Canadian LPI formula versus the American JPI formula. Our Jersey line-up has never been stronger and we wanted to draw attention to our great sires regardless of which system you choose to use.

**GUERNSEY:** **Coulee Crest Carver** remains our top ranked Guernsey while increasing 15 points to +1205 GPA LPI.

**MILKING SHORTHORN:** The proven sire **Oceanbrae Royal Bentley** remains the #3 ranked sire. The remaining four Milking Shorthorn sires all enjoyed gains for LPI including our exciting newly added sire in August **Top Shelf Royal Laser**.
