

The final proof round of the year sends a resounding message to our Holstein breeders — and that message is **WOW**, as this round introduces an exceptional class of new sires to our already power-packed lineup.

Our proof highlights start with the 'Jaw-Dropping' **Mr Ernestanthony Havenofear**. **Havenofear** has been making waves for quite some time, and his rise continued with impressive class-winning performances at both this year's *RAWF National Holstein Show* and the *Cremona International Dairy Show* just days ago. A popular Breeder's Edge sire, **Havenofear** joins our proven lineup with an early official type proof with +12 and a GMACE production proof with +921 Milk. Notably, he has a modern components profile,

placing stronger emphasis on Protein improvement over Fat (+.21% Protein vs -.12% Fat). The impeccably bred Lambda son traces back through 11 generations of VG or EX dams from the renowned *MOM Halo* and *Dellia* families. He delivers snug, stylish udders (+8 Overall, 3S Udder Depth); outstanding Feet & Legs (+8 Overall, +11 Heel Depth); ideal Rumps (+7 Loin, 3L Rump Angle); and open, dairy frames (+10 Dairy Strength, +11 Rib). Despite his impressive capacity ratings, he is a proven **Calving Ease** specialist, and with 66 for Semen Fertility, this **Fertility First®** designated sire stands amongst the very best! **You'll have No Regrets with Havenofear!**

**Kings-Ransom Dropbox** has added his first daughters in Canada, enough to receive an early preliminary Conformation proof with +9. More importantly, he has 623 daughters milking in the U.S. now which have contributed to his gain in milk by another 150 lbs. and an overall PTAT to an impressive 2.84! Field reports continue to flow in from around the world as early daughters continue to impress including a 2<sup>nd</sup> Intermediate 2-YR-Old and a winning 1<sup>st</sup> place

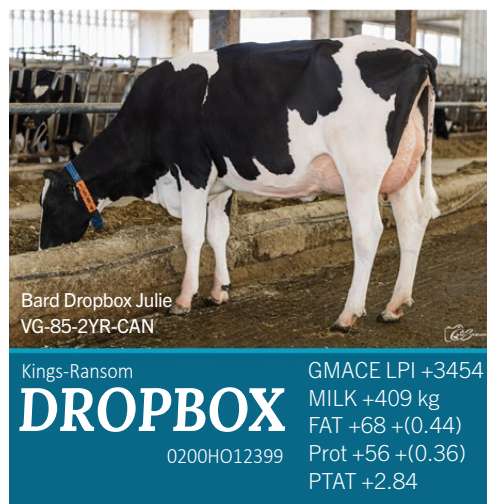

heifer at the recent 2025 International Show in Cremona. The well-bred Highjump son stems from the renowned **Kings-Ransom Casp Daze EX-95-2E (EX-97 MS)** who is a 4th generation EX and completes 14 generations of VG or EX dams. **Dropbox** is an A2A2 and BB carrier who consistently sires daughters with exceptional udders (6S Udder Depth),

long frames, ideal sloping rumps (Rump Angle 5L), and is exceptional for Mastitis Resistance (106). Whether you're breeding for balance, longevity, show-winning style, or all-around profitability, **Dropbox** is the kind of bull that fits — anywhere, and everywhere!

**Cookiecutter Larson** also joins our proven lineup this proof round as a highly reliable modern sire built for today's progressive operations. **Larson** (Highjump x Helix) debuts with an impressive +1561 Milk, +114 Fat (+.42%), +69 Protein (+.12%) along with a solid +6 for Conformation. A Sire of Sons and an **A2A2** carrier, **Larson** brings the complete package — **Calving Ease**, **Fertility First®**, and **Robot Ready™** designations — making him an ideal choice for breeders seeking a highly profitable, well-balanced sire. **Larson** is featured in our **30 for \$30 Introductory Special** and is also available on a **Pre-Purchase Sexed** basis!

**Claynook Cracker** received an official Conformation proof this round with +8 and will have an official production proof in April. **Cracker** looks to be a production juggernaut with +3915 GPA LPI, +926 Milk, +127 Fat (+.75%), and +70 Protein (+.29%). **Cracker** (Mezzoforte x Renegade x Outlast) will deliver highly profitable daughters with exceptional F&L's (+11), and like **Larson**, carries the **Calving Ease**, **Fertility First®**, and **Robot Ready™** designations that today's breeders demand.

**Other Proven Sire Highlights:** **Progenesis Monteverdi's** rise is nothing short of remarkable! Climbing to #3 in Canada for GLPI, he continues his dominance with a fourth straight proof-round jump. The #1 proven sire in Canada for siring profitable daughters is **Progenesis Pattern** who joins our **Profit Plu\$** line-up with an amazing \$3211 Pro\$! With an impressive GP & Better rating of 94%, **Mattenhof Harris** claims Canada's #1 Conformation sire spot with a remarkable +18! Unfortunately there is only a small quantity of **Harris** semen in Hungary where he was housed that is presently unavailable due to a change in the country's health status. **Immunity+®, A2A2, Calving Ease**, and **Fertility First®** designated **Fly-Higher Sugarhigh** surged two points on Conformation to +9 while increasing to 110 Immunity. **Sugarhigh** is available with **Limited Supply Day-to-Day Sexed** and in our **Pre-Purchase Sexed 30 for \$50 Special**. **Progenesis Knowhow**, who is no longer with us, will return for one last offering **While Supplies Last** for those that have been loyal **Knowhow** fans. He experienced another awesome round gaining for Milk, GLPI, and Pro\$.

**NEW**

## Short Supply Sires

Three exciting new Short Supply sires this round including an early son of Canada's #1 ranked sire **OCD Milan** and two exciting **Anahita** sons both available sexed — one with +16 for Conformation and the other an amazing +19!

### Progenesis **KLEIN**

+4059 GPA LPI +847 Milk +159 CFP +10 CONF  
KLEIN is a **Robot Ready** designated son of the #1 ranked sire in Canada, OCD Milan. His dam is a VG-87 Larson from the respected broodcow Dulet D-Lambda Katrina EX 5\*. KLEIN makes a welcome addition as an impressive production sire with double-digit Conformation combined with across the board elite Health & Fertility trait improvement.

### Claynook **COOPS**

+3998 GPA LPI +978 Milk +139 CFP +16 CONF  
COOPS (Anahita x Inbendigo), who is **Robot Ready** and **A2A2**, offers high production, high components, and an amazing type profile which is highlighted with his +15 Mammary System and +10 Feet & Legs. With 13 Health & Fertility traits average or above, COOPS makes an exciting new option.

### Benjo Lindenright **MAPACHE-P \*RC**

+3552 GPA LPI +875 Milk +56 CFP +19 CONF  
MAPACHE-P is a heterozygous polled, **A2A2**, red carrier **Anahita** son who stems from the amazing Stadacona Outside Abel VG-88-CAN 38\* family. He offers a lot of amazing and special qualities in a package where you can expect some exciting progeny!
