Iodine Teat Dips *DIN

A complete line of quality iodine teat dips for pre & post dipping, with advanced formulation to provide maximum killing power and enhanced skin conditioning.

POST DIP	Code	Size	\$	\$/litre
----------	------	------	----	----------

Dairyman Defence Premier 1%	679	18.9	135	7.14
	680	55	310	5.64
	681	205	1020	4.98

Advanced formulation to provide maximum killing power and enhanced skin conditioning.

POST DIP	Code	Size	\$	\$/litre
----------	------	------	----	----------

Dairyman Defence Ultra 1%	682	18.9	140	7.41
	683	55	325	5.91
	684	205	1150	5.61

A special high viscosity formulation allowing the product to slowly drip and bathe the teat end.

POST DIP	Code	Size	\$	\$/litre
----------	------	------	----	----------

Dairyman Defence Guard 3/4%	751	55	250	4.55
	752	205	830	4.05

Innovative formulation that will reduce mastitis causing organisms. Effectively used in robot milking systems.

PRE & POST DIP	Code	Size	\$	\$/litre
----------------	------	------	----	----------

Dairyman Defence First Defence	810	18.9	115	6.08
	811	55	262	4.76
	812	205	795	3.88

Quick, broad spectrum kill of mastitis causing pathogens. One of the most effective products available for killing staph.

Chlorhexidine Teat Dip *DIN

POST DIP	Code	Size	\$	\$/litre
----------	------	------	----	----------

Dairyman Defence Shield	755	55	220	4.00
	756	205	775	3.78

Non-irritating with a formulation that provides a residual effect providing extended killing time. With neutral pH and non irritant properties, Shield is an excellent alternative to Iodine.

CIP Product Line

High quality milk products begin with clean sanitary pipelines and milkhouses.

	Code	Size	\$	\$/litre
