Iodine Teat Dips *DIN

A complete line of quality iodine teat dips for pre & post dipping, with advanced formulation to provide maximum killing power and enhanced skin conditioning.

POST DIP Code Size \$ \$ / litre

Dairyman Defence Premier 1%	679	18.9	172	9.10
	680	55	380	6.91
	681	205	1255	6.12

Advanced formulation to provide maximum killing power and enhanced skin conditioning.

POST DIP Code Size \$ \$ / litre

Dairyman Defence Ultra 1%	682	18.9	180	9.52
	683	55	395	7.18
	684	205	1380	6.73

A special high viscosity formulation allowing the product to slowly drip and bathe the teat end.

POST DIP Code Size \$ \$ / litre

Dairyman Defence Guard 3/4%	751	55	310	5.64
	752	205	998	4.87

Innovative formulation that will reduce mastitis causing organisms. Effectively used in robot milking systems.

PRE & POST DIP Code Size \$ \$ / litre

Dairyman Defence First Defence	810	18.9	150	7.94
	811	55	324	5.89
	812	205	1058	5.16

Quick, broad spectrum kill of mastitis causing pathogens. One of the most effective products available for killing staph.

Chlorhexidine Teat Dip *DIN

POST DIP Code Size \$ \$ / litre

Dairyman Defence Shield	755	55	315	5.73
	756	205	975	4.76

Non-irritating with a formulation that provides a residual effect resulting in extended killing time. With neutral pH and non irritant properties, Shield is an excellent alternative to Iodine.
