

# SEMEX

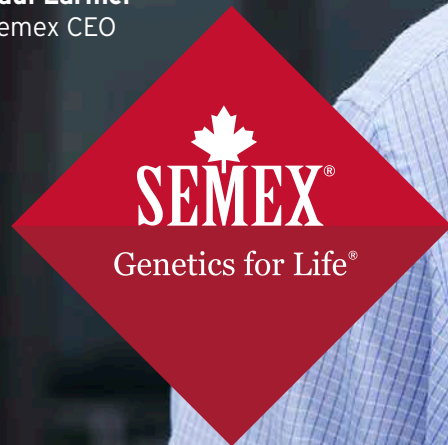

## Ever Changing, Ever Growing, Always Your Partner

Genetics for Life® means that together, we're building our client's best business. We're results driven, technology first and sustainable, targeting mutual success. In addition to our leading genetic solutions, we have the best product whether you're talking dairy, beef or embryos. And, we continue pushing. New technologies developed by Semex and Boviteq are the envy of the industry, leaving our competitors struggling to keep up.

Add it all up - Leading genetic development in both dairy and beef - Leading genetic solutions - increased production capacity and modernized facilities - with an investment in our global team that meets our ever-changing client demographic.

We're ever-changing and ever-growing. And, we're excited about our future growth with you.
