Brugline Goldwyn Emily VG-85-2YR-CAN

MGS: Blondin Colorado

Brugline Farms Ltd., Chesterville, Ontario, Canada

"Emily is one of our very first VG 2-Yr-Olds. She has an aggressive appetite and is tall and stylish. She is really clean-boned, hard-topped and has an ideal udder. It is a very silky udder - the kind you want all of your cows to have. She is just an all-around beautiful cow that has the potential to develop and produce trouble-free in our herd for a long time."

"The Goldwyn daughters are tall, long-bodied, stylish, refined dairy cows. They have long necks and attractive, feminine heads.

Goldwyn daughters have beautiful udders with phenomenal texture and median suspensory ligaments. Their rear udders are high and wide and their fore udders are strongly attached.

Their leg is clean-boned with ideal foot angle and heel depth. They also have an ideal rump angle with very strong loins.

To sum it up, Goldwyn is a source of height, stretch and refinement with great feet and legs. He will work best if used on wide, deep-ribbed cows. He will be a great mating on typical daughters of Morty, Allen, Gibson, Lee, Igniter, Income, Emerson and Mason."
