

Ebony's Influence Takes the Prize

Article posted on May 13, 2013, 11:04:42

Xcel Ebony's Influence was crowned the 2011 Royal Agricultural Winter Fair Grand Champion Simmental Bull, so it's no surprise that his progeny is leading off shows across North America. Homo polled and hetero black, he provides a phenomenal blend of calving ease, performance, maternal strength and style with a unique pedigree and flawless phenotype. Congratulations to Morgan MacIntyre who showed her Ebony's Influence sired heifer at the Big East Youth & Jackpot show in West Springfield, MA this past week and was crowned the Grand Champion Jackpot Simmental Heifer!

Xcel Livestock has seen great results from their Ebony s Influence calves and were excited to see their first calf heifers all calved unassisted and are showcasing excellent udder structure with lots of milk. So not only is he producing show stopping progeny, but also functional and productive females that will go on to be profitable cows. Contact your representative to order today!
