

Updated American Angus Assoc. EPDs Now Online

Fall 2013 EPDs continue to roll out and we are happy to announce the American Angus Association EPDs have now been updated on the Semex Beef website. A friendly reminder that the American Angus Association releases updated EPDs each Friday so please click on the link on each bulls page for the most up to date data and info.

American Angus Association Fall EPD Highlights:

- [EXAR Concise 1304B](#) posts an impressive 63 WW EPD with a 100 YW EPD!
- [Koupals B&B Dante 2069](#) has an exceptional EPD spread showcasing moderate calving ease, tonnes of growth, maternal strength and loads of carcass power.
- **PA Insight 2670** has some impressive numbers, ranking in the top 1% of the breed for WW, YW, MILK and MARB!
- [S A V Cabela 1196](#) shows exceptional balance from growth to maternal.
- [S A V Piedmont 0882](#) takes the lead with a 125 YW EPD.
- [S A V Riata 1178](#) tops the breed with an incredible 69 WW EPD and 134 YW EPD, as well as a 64 CW EPD.
- [Vision Unanimous 1418](#) still tops the breed for performance and power, ranking at the top of the breed for WW, YW and CW.

Remember to check back for more Fall 2013 EPDs!
