Audibel JORDAN is our one Jersey addition this proof round. **JORDAN**, a full brother to the recently added **Audibel WEBSITE**, will undoubtedly be one of our top used sires this fall. **JORDAN**, who is **Robot Ready™** designated and an **A2A2** carrier, is a Weststar son (by Mackenzie) from the high component **Guimo Premier Jade VG-88**. **Jade** has a best 305 day record of 9,873 kg of milk with 5.78% Fat and 4.23% Protein. **Jade's** VG-2YR full-sister is the dam of the popular **Guimo JUDO** and both stem directly from one of the breed's all-time greats **Fermar Paramount Joy EX-95-US 12***.

JORDAN daughters will be profitable (Pro$ $2031, GPA LPI 2012), while offering component improvement (62 kg +0.28% Fat, 41 kg +0.14% Protein), and tremendous type (+14 Conformation).

While **WEBSITE** may offer slightly higher Milk yields (+1024 kg), **JORDAN** will be the brother to choose for higher Fat deviations and for overall type. **JORDAN** is the only plus rated Milk sire available in Canada today who is double digit for every major type trait! The **JORDAN** daughters will have snug udders (+11 Mammary System, 3S Udder Depth, +10 Rear Attachment Height) and quality Feet & Legs (+10 Overall, +6 Heel Depth, +6 Foot Angle and +10 Rear Leg Rear View). **JORDAN** will also be a tremendous source for dairy open frames (+11 Overall, +9 Stature, +5 Height of Front End, +8 Chest, +3 Body Depth and +12 Dairy Capacity). This width will carry through their rumps (+10 Rump, + 7 Pin Width) and they will have hard tops (+7 Loin). If that's not enough to get your attention, **JORDAN** is also available sexed on a **Pre-Order Basis!**
