## Laboratory Manager

We are currently looking for an **IVF Laboratory Manager** to join our IVF Lab team at our Boviteq Blue Box location in Maddingley, Victoria, AUSTRALIA. In this role you will be part of a dynamic team responsible for an IVF Laboratory and lead a team of technicians in the production of bovine IVF embryos.

### What will you do:

- Overall supervision of laboratory operations, production and staff
- Provide guidance and direction in the management of production objectives, prioritization, and non-compliance
- Ensure adherence to regulatory requirements, SOPs, KPIs, budgets, and schedules
- Analyze and communicate the lab activity reports

### What you need to be successful:

- Previous management experience
- 2 years' experience working in Commercial Laboratory Production
- 2 years of IVF Laboratory experience
- Strong leadership and communication skills
- Excellent problem-solving skills
- Bachelor's degree in biotechnologies or other related field required

### Why join Boviteq a division of Semex Australia:

At Boviteq, we demand the best of ourselves, our company and what we do for our customers. Surrounding ourselves with the best, the brightest and the most aggressive professionals ensures we attain this goal. We offer a challenging yet flexible work environment along with competitive compensation and benefit package. At Boviteq, you will have the opportunity to make a difference in a world that increasingly needs bold and innovative approaches to address the world's growing food requirements with environmentally sustainable solutions.

Please send your resume as soon as possible by email: [boviteq@semex.com.au](mailto:boviteq@semex.com.au)

Applications close Thursday 31st July, 2025 at 4.30pm.

*We thank all applicants for applying for this position, but only those considered for an interview will be contacted.*
