By Highjump and from the legendary **Casper Daze** — a total-package, fourth-generation EX dam from a 14-generation VG or EX maternal line spanning six decades — **DROPBOX** is a sire with global impact written in his DNA. With daughters calving out around the world in every type of operation, the excitement is real and growing. Whether you're breeding for balance, longevity, show-winning style, or all-around profitability, **DROPBOX** is the kind of bull that fits — anywhere, and everywhere. **From a cow family that's proven itself for generations comes a sire ready to shape the next. DROPBOX is DAZE MADE!**
