1 SUPERIOR PRODUCTION LACTATION

An exciting locally-bred **Lambda** son, **LINDT** is backed by a richly bred **10TH generation VG or EX dam** who has really put **Fepro Holsteins** on the map. This is a pedigree built on strength, consistency, and modern functionality. Breeders can expect **beautifully balanced daughters** with **open, capacious frames, strong feet and legs,** and **wide, well-attached udders** — the kind that thrive in any environment. Already catching attention in heifer pens, **LINDT calves are turning heads** for all the right reasons.
